

# A-76 Revisions

Mark Wagner

Vice President, Government Relations  
Johnson Controls, Inc.

Chairman, Public Policy Committee  
Contract Services Association

# Old A-76 Revisions

## Address Longstanding Concerns about A-76

1. Take too long / Cost too much
2. Playing field not level
3. No MEO accountability

## New Rules

1. Have Time Limits (12-18 months)
2. All Parties compete under the same set of rules (FAR)
3. MEO has Performance Metrics & Faces recompetition

## Transition issues

Figure out what to do and move on

# Concerns

1. Streamlined Competitions (< 65 FTEs)
  - Will it be different?
  - 98% of old streamlined competitions stayed in-house
2. MEO can get an additional 3 years of performance
  - Will this be standard operating procedures?
  - Contractors must recompete
3. Workload data will still be problematic
  - Need to find solutions
  - This is one issue that can still drive away competition
4. These are procurements governed by the FAR
  - Need to be treated like other procurements
  - Oversight and accountability are important under the new rules
